

2017 NSSC Webinars

Natural Resources Conservation Service
National Soil Survey Center

Aug 10th

1:00–2:30 p.m. (CT)

Presenters:

Eric Gano

Soil Scientist, Flint, MI NRCS

Kristine Ryan

Soil Survey Project Leader, Aurora, IL NRCS

Randy Riddle

Soil Survey Project Leader, Oxnard, CA NRCS

Richard Shaw

State Soil Scientist, Somerset, NJ NRCS

Luis Hernandez

Regional Director (12), Amherst, MA NRCS

This webinar will be made available on the [NSSC YouTube Channel](#).

Urban Soil Mapping through the NCSS

This webinar is a panel presentation on recent NCSS mapping efforts in big cities. You'll hear how some employees have overcome the challenges of mapping in urban areas as well as the career opportunities they have had as a result of these mapping efforts.

Some U.S. urban mapping efforts were conducted before national standards for describing, classifying, and mapping in urban areas were developed. Survey efforts since the late 1980s were used to develop and test our current standards and classification system for human-altered and human-transported (HAHT) soils. Urban soil mapping completed in the U.S. includes San Diego, Washington, D.C., St. Louis, Baltimore, Chicago, New York City, Los Angeles, and Detroit.

On Wednesday, August 10th, click the following link to join the webinar:

<http://nracs.adobeconnect.com/r4npr03zrjm/>.

- Enter as a guest,
- Type in your name, and
- Click on "Enter Room."

Participant audio is through computer/device only.

NSSC staff in Lincoln are invited to join the webinar in Room 397A.

Webinar Connection Test — Test your connection before the webinar: https://admin.adobeconnect.com/common/help/en/support/meeting_test.htm.

Please invite staff and partners who you think have an interest in this subject.
